

GILAT – the leader of satellite communications

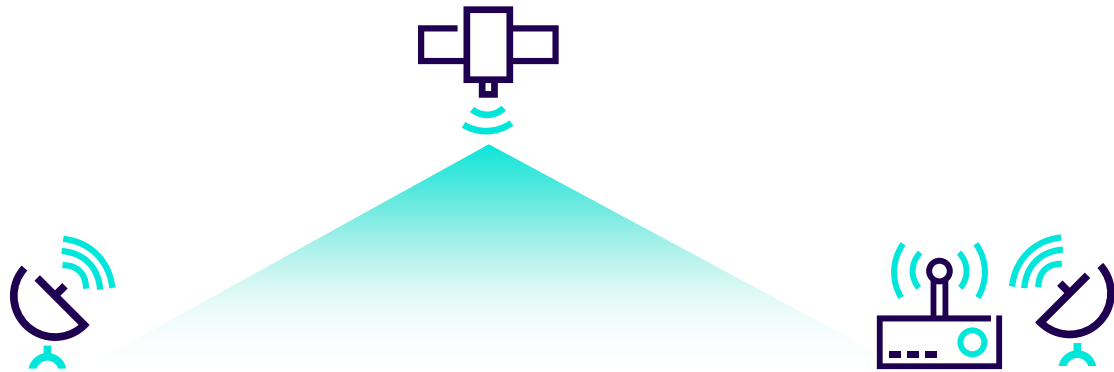

Denis Stafeev, GM Eurasia

Ashgabat, Turkmentel 2024, November 2024

Gilat Satellite Networks

A World Leader in Satellite Communications

Innovative Ground Equipment Technology

Major Player in Non-Geostationary Orbits (NGSO)
& Very High Throughput Satellite (VHTS) Networks

Cellular Backhaul

2G 3G 4G 5G

Aero / IFC

Telecom Infrastructure
& Services

Maritime

Government

Consumer

Winning Global Team

Over 35 Years of Proven Product and Business Success

Fully Owned Subsidiaries:

Gilat Wavestream Wavestream is the industry leader in the design and manufacture of next-generation high-power transceivers, focused on the IFC, Defense and NGSO gateway markets

Gilat Peru In Perú Gilat is dedicated to supporting telecom and technology projects for the Peruvian Government as well as multiple telecom service providers

DataPath Inc. DataPath is a leading mission critical solutions and services provider in the satellite, C6ISR, and commercial communications industries

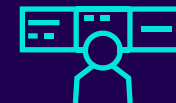

~1100 Employees

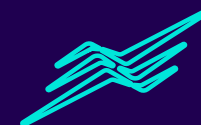

16 Sales Offices

7 R&D Centers

3 NOC Centers

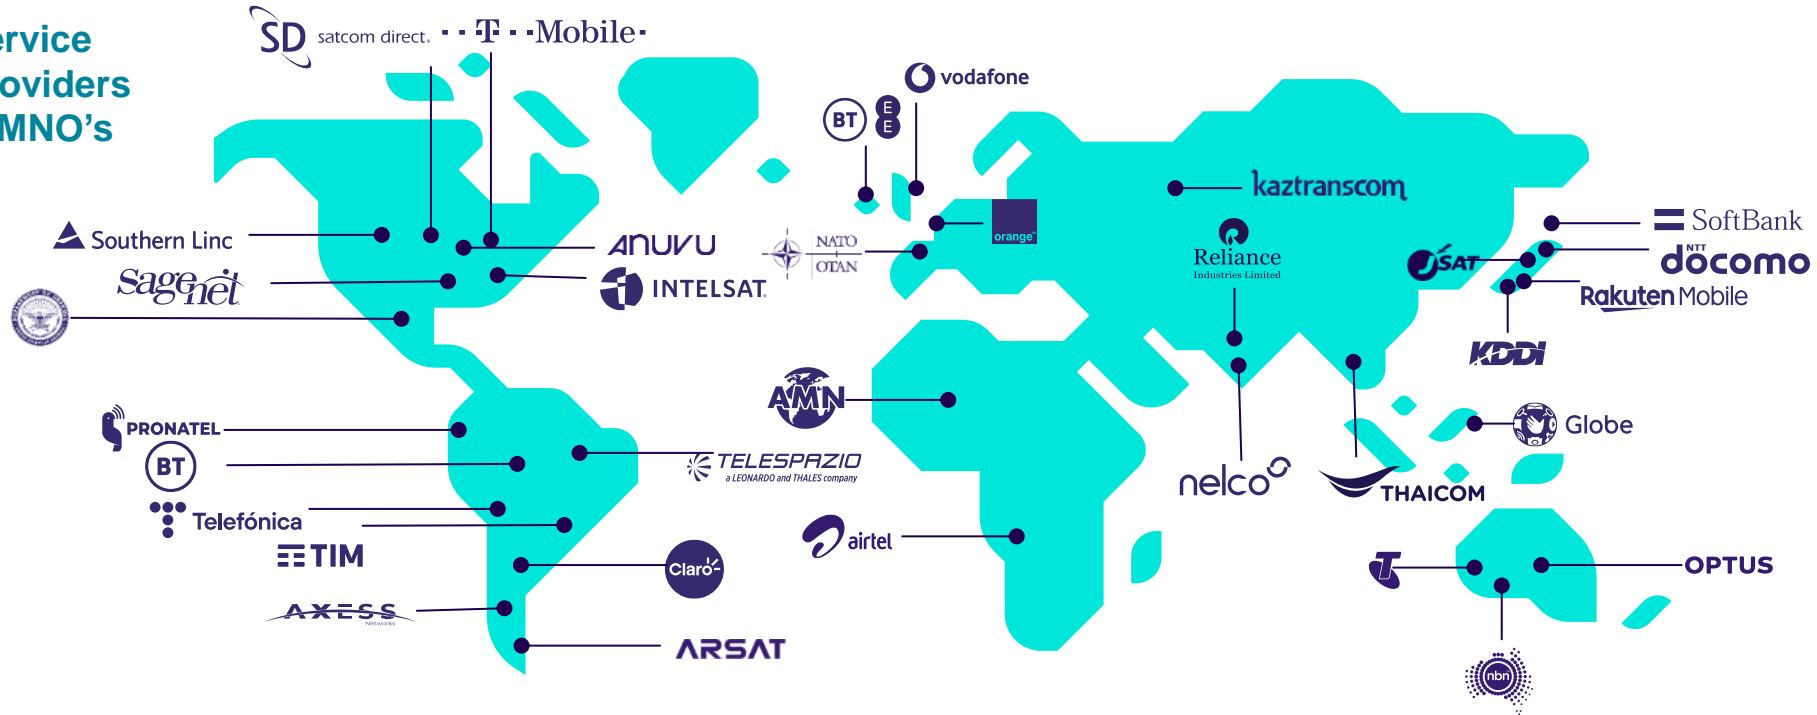

NASDAQ: GILT
TASE: GILT

Leading Global Customer Base

Satellite Operators

Service Providers & MNO's

100+ Countries

300+ Customers

Hundreds of Networks

System Integrators

Gilat is Leading the New Space Revolution

- World's first operational multi-orbit platform
- Chosen for 2 large LEO programs
- Proven in test flights in multi-orbit constellation
- Selected by Satcom Direct for LEO constellation

VSAT Platform

SkyEdge IV

Gateway SSPAs

In-Flight Connectivity

Broad IFC Solutions (Line-fit & Retrofit)

Honeywell
ANUVU

~7,000 Aircraft Flying with Gilat Solutions in ~25 Airlines

Maritime

SkyEdge IV was Chosen to Enable High-Throughput Multi-Orbit Service Continuity

SES[▲]

O3b mPOWER

Global GEO satellites (Ka, Ku, C-band)

Defense & Government

Secure & Resilient SATCOM Technology
for Today's Net-Centric Battlefield

End-to-end in-house
capabilities for land,
sea and air missions

Ruggedized
antennas, VSATs,
modems and SSPAs

Enable mission-critical
COMMs/C5ISR
operations over multi-
orbit, software-defined
platforms

Support defense
organizations around
the globe

Cellular Backhaul over Satellite

#1 Choice for 4G, Now Proven for 5G

Platform of Choice for MNOs

Platform of Choice for Operators

Leading Cellular Backhaul Worldwide

Over 75% Market-share in 4G CBH over Satellite

**Largest LATAM
Satellite Network**

 SoftBank

**Largest Asia
Satellite Network**

**Largest Africa
Satellite Network**

 SoftBank 

**Dominant in
Japanese Market**

Emergency Communication

Global Leader for Fast & Easy Deployment;
Fixed - On-the Pause - On the Move

Success around the globe

Enterprise

Efficient and Reliable Satellite-based
Connectivity Solutions to Multi-site Operations

Success around the globe
