

New Satellite Technologies and Applications

Space Agency
of the Republic of Azerbaijan

About Azercosmos

We are the leading force behind the development of innovative space ecosystem in Azerbaijan. Founded in 2010 as the first and only satellite operator in the region, we currently operate 3 satellites, and are committed to creating a better connected, developed, and secure world for future generations.

We aim to emerge as one of the driving forces in the global space industry by engaging in a wide range of R&D activities, cooperating with international stakeholders and partners, participating in major global projects, and building the local know-how.

What We Do

Telecommunication Services & Solutions

Earth Observation Services & Solutions

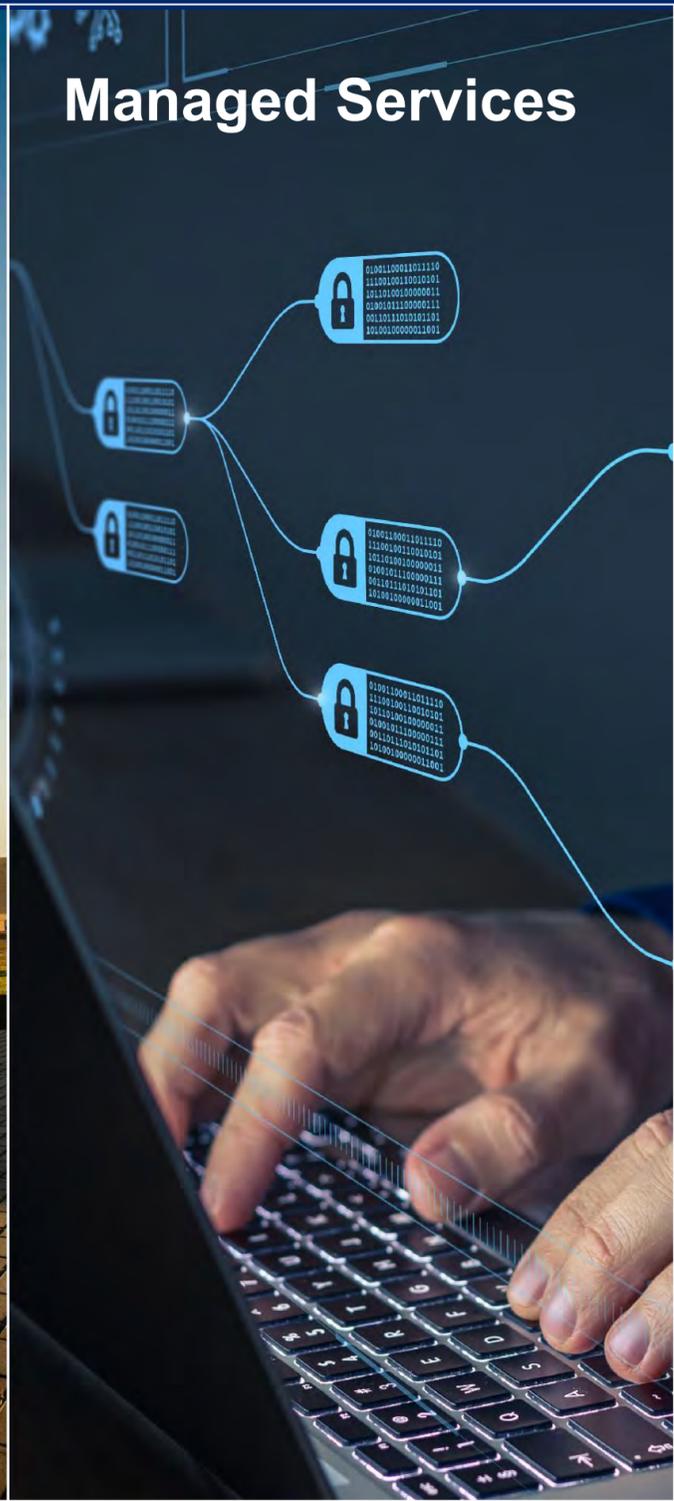

Teleport Services

DRS Services

Managed Services

TELECOMMUNICATION SATELLITES

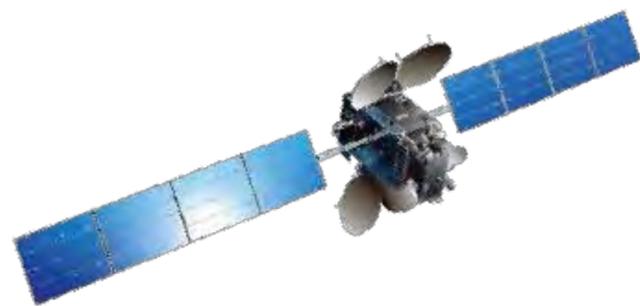

Azerspace-1 46° East

Launched in 2013
C and Ku band

Azerspace-2 45.1° East

Launched in 2018
Ku band

FACTS & FIGURES

Delivering connectivity to
20+ million households

250+ TV and Radio
channels broadcasted

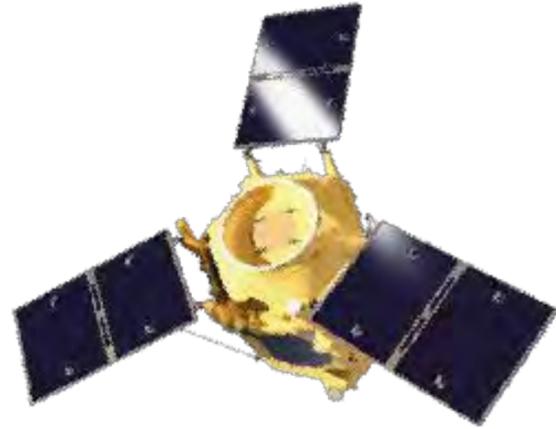

99.3% customer
satisfaction in **2021**

Broadcasting in
5+ languages

EARTH OBSERVATION SATELLITE

Azersky

Launched in 2014

Resolution:

- 1.5m panchromatic
- 6m multispectral

APPLICATION AREAS

Defence and Security

Agriculture

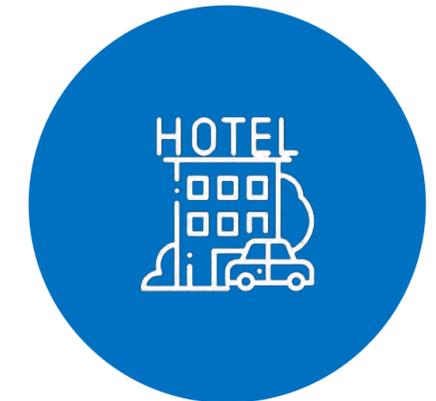

Environment Protection

Urban Development
and Infrastructure

Maritime

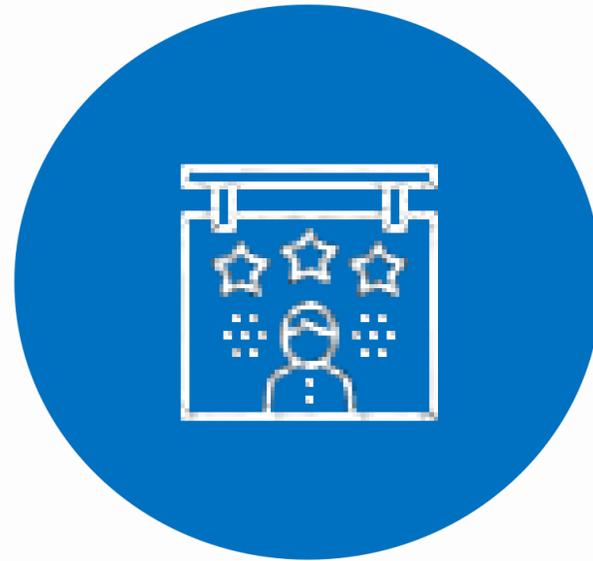

Tourism

Key Business Cornerstones

Technical Quality

Customer-centricity

Customised Approach

- We aim to forge strong cooperative ties with space agencies, business partners, and other stakeholders globally, establishing and enhancing meaningful relations.
- We strive to strengthen our positions as the regional space hub, driving the development of the regional space ecosystem.
- We look forward to expanding cooperation in the industry with our partners within the region to facilitate the advancement of emerging space nations in the space sector.

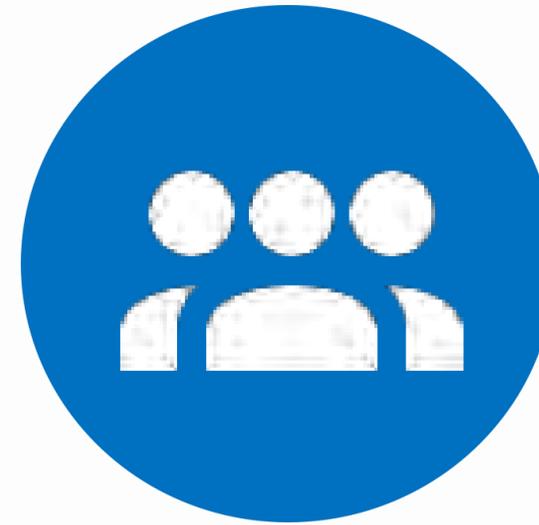

International Cooperation

Cooperation with space agencies within intergovernmental commissions

Cooperation with international organizations and institutions

Membership within international organizations

International Astronautical Congress 2023

- The most prominent event of the global space industry, the IAC will be held in Baku, Azerbaijan on 2-6 October, 2023.
- The IAC is back to Baku exactly 50 years after the capital of Azerbaijan hosted the event for the first time.
- A perfect occasion to reach a diverse international audience through one-of-a-kind exposure both within the region and internationally, establish strong collaborations, and gain access to an emerging vast regional market.
