

CONNECT • POST

CONNECT A POST,
CONNECT A COMMUNITY

TURKMENTEL

Objective

CONNECT • POST

Enhancing socio-economic development through meaningfully connecting all post offices in the world to the Internet by 2030

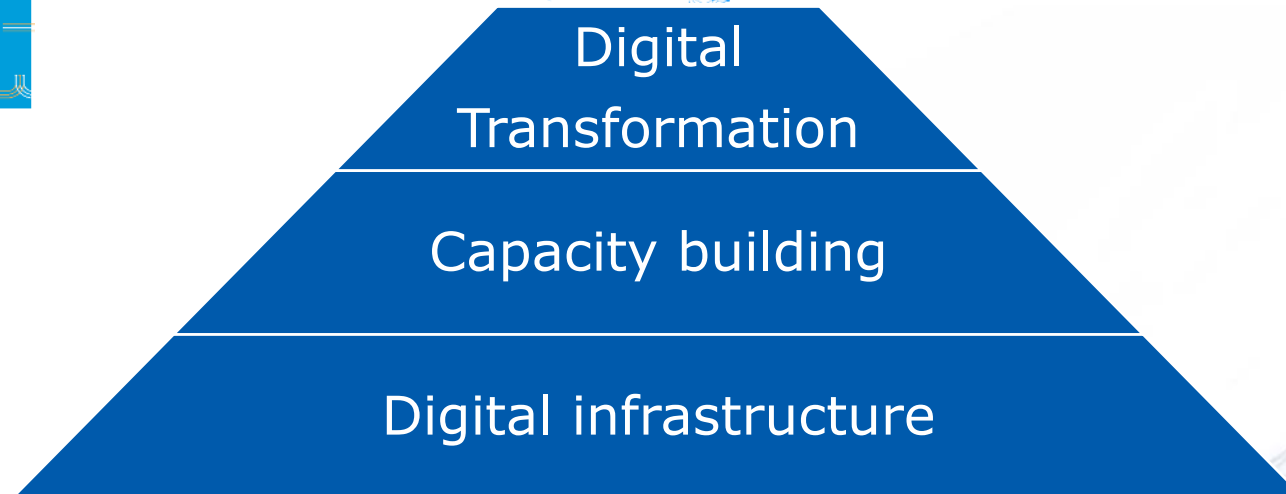

A sustainable model

Digital and financial
inclusion for the market

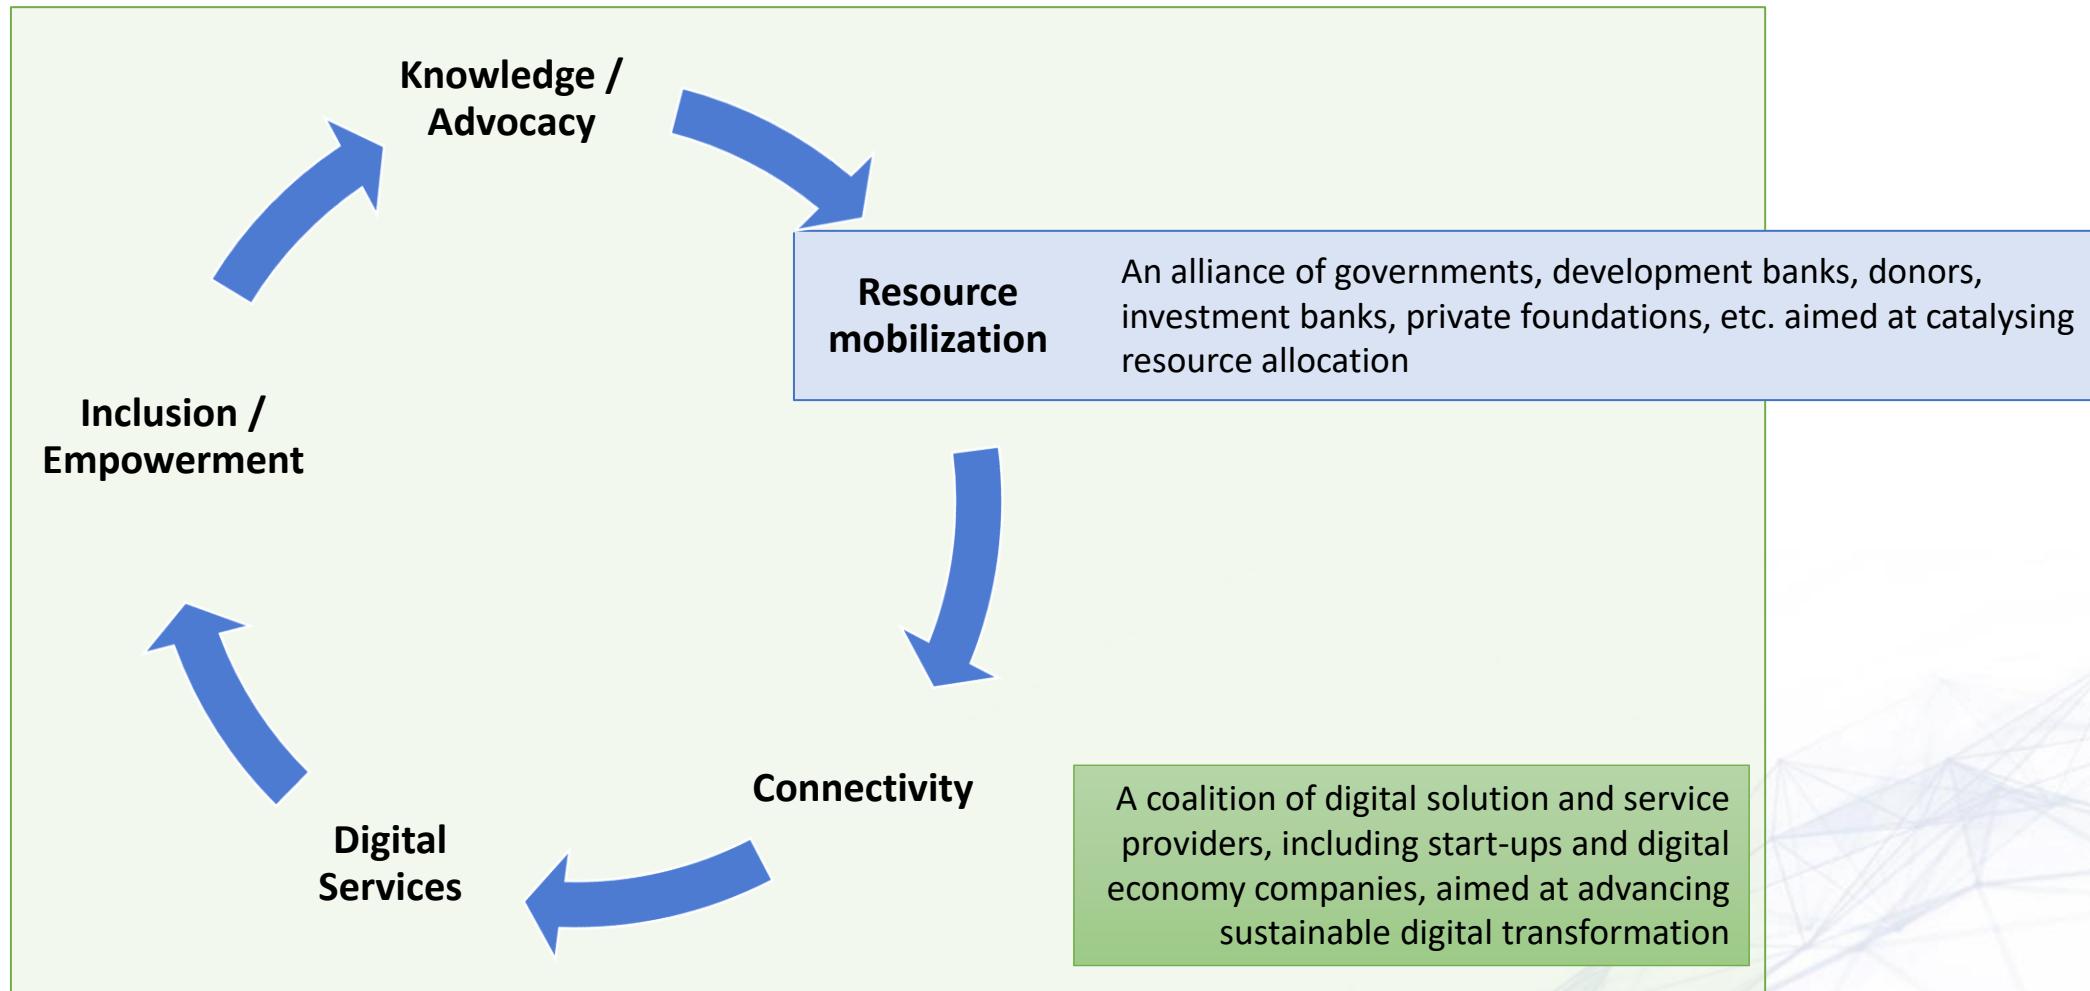

Digital Economy Services

- Trade facilitation
- E-Finance
- E-Government
- E-Commerce

How Connect.post works?

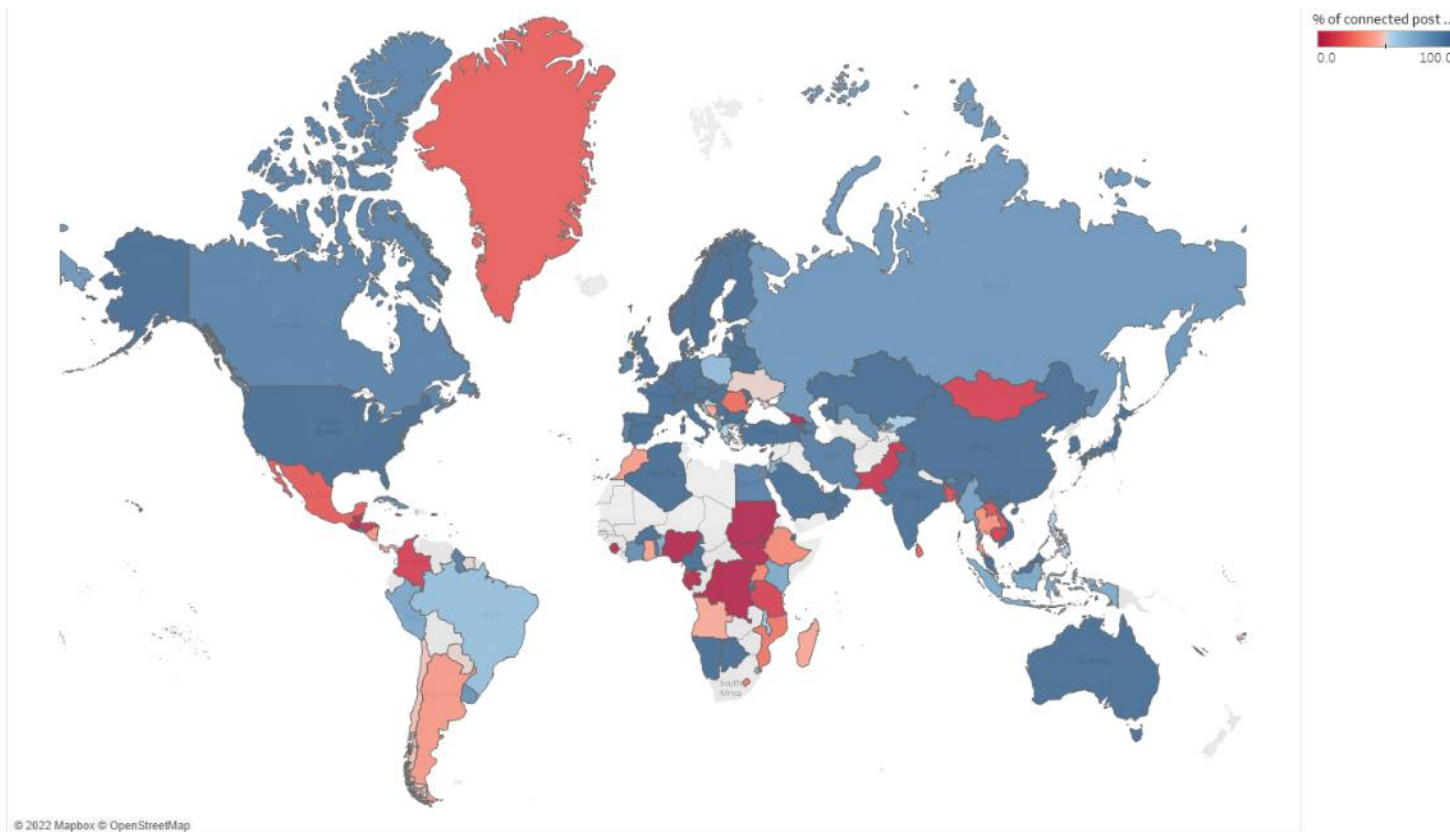

Background in CIS

Total number of permanent post offices	50'000+
Number of post offices in rural areas (including mobile post offices)	~80%
Number of post offices providing public Internet access points	180 (?)
Number of permanent post offices connected to an electronic network	70% (?)

*The figures above are estimates based on UPU statistics

Phase 1: mapping

Mapping all post offices in the world and their level of connectivity is the foundational work which will inform all subsequent work

UPU will collaborate with ITU

Thank you!
